

Overview of the connection status

Equivalence in the framework **Installation technician in Solar photovoltaic energy - 'Equivalencies' Assessment Tool** between the hierarchies

"Solar Power (Pv) Installation and Maintenance technichan " and "FI - National Industry competence framework / NVQ Structure" ▼

	<u>Solar Power (Pv) Installation and Maintenance technichan</u>	<u>FI - National Industry competence framework / NVQ Structure</u>
--	---	--

Number of items in the tree:	116	113
------------------------------	-----	-----

Total number of possible item-to-item connections between hierarchies:		116 x 113 = 13108
--	--	-------------------

Number of defined item-to-item connections:		110 (.84%)
---	--	------------

Number of items that contain a list of elements/competencies:	49	89
---	----	----

Total number of possible competency list-to-list connections between hierarchies:		49 x 89 = 4361
---	--	----------------

4361 (100.00%)

Number of defined list-to-list competency connections:	4237 	Completed, 0  Incomplete, 124  Not relevant 0  Not processed (but items related) 0  Not processed (and items not related)
--	--	--
